be nearly ninety-five years old. "Grannie" joined the Methodist Church when quite young. She lived a Christian life, and was loved by all who knew her, None will miss her more than the writer of these lines. I have known her over forty years. She came here from Summer county, Tenn., in 1862, and was left a widow in 1866. She lived with her sou-in-law, Carter Stewart, until last summer when Mr. Stewart moved to Kansas, since then she has made her bome with V. J. Arbuckle. She was buried at the Stewart graveyard on the 24th, at 2 o'clock p. m.

Born, to the wife of V. J. Arbuckle, Jan. 23, a fine boy. Strange, but under the same roof lay the grandmother of the infant dying, who died three hours later. Mother and child doing well. Born, to the wife of G. C. Butler, a nine pound boy. Counce's face is wreathed with smiles.

The grippe is losing its grip here, all the cases are about well.

Tom Wilson, of Baizetown, is very low of typhoid fever, and he is not expected to recover.

Select school under the management of Prot. D. Lee Barnes, closed on the 20th of January with success. The Professor opened his fifth school at this place the 25th, with flattering prospects. Miss Ida Patterson, of Prentis, is attending school at Select. She is a charming young lady of about eighteen summers. Miss Nannie Arbuckle is attending school at No. 25, where Mr. Boyce Taylor has a select school, which bids fair to be one of the best schools in this part of the county.

The New Dictionary .- The answer of the publishers of Webster's Unabridged Dictionary to the attempt of pirates to steal their thunder by issuing cheap phototype reproduction of the antiquated edition of 1847, is the publication of a new and completely re-edited and enlarged edition of the authentic Unabridged, which as a distinguishing title bears the name of International.

The publishers have expended in the last ten years \$300,000 in the preparation of this new book before issuing the first copy, and the improvements of the various editions since that of 1847 have cost over three-fourths of a million of dollars for editing, illustrating, type ting and electrotyping alone.

The new Dictionary is the best book of its kind in the English language. It unlocks mysteries, resolves doubts, and decides disputes. The possession of it and the habit of consulting it will tend to promote knowledge, literary taste and social refinement. For every family, the members of which have mastered the art of reading, the purchase of Webster's International Dictionary will prove a profitable investment, and the more they advance in knowledge and cultivation the more they will appreciate its aid and worth.

If news was as plentiful as the "grippe," in this country, I could write an interesting letter. Nearly ever one has or has had the "grippe," your corespondent included. George House has pneumonia.

Thomas Wilson is very ill of typhoid.

There is quite a flourishing school at this place, under the management of Prof. D. Lee Barnes. The Professor is an excellent teacher, and deserves the success he meets with. We are glad to see so many of the young folks of Little Bend attending our school.

There was an interesting revival held at this place some time ago, during which time several of our young peeple confessed their sins, and signified their willingness to obey the Lord. So far, so good. Three weeks later there was a dance, at which many of them lost their religion. Boys your religion didn't last you as long as a clean shirt.

## Japanese Ideas of Honor.

(London News.) An English resident writing from Kobe says the excitement over the attempt to take the life of the czarowitch has cooled down, but the Japanese continue to give vent to their feelings in curious ways.
